

 Health In
Harmony

Integrating essential medical care with environmental protection strategies for the threatened rainforest

Please join Dr. Kinari Webb, founder of

Health In Harmony

Sunday, April 19 - New Haven, CT

Wednesday, April 22 - Fairfax, VA

Friday, April 24 - Chevy Chase, MD

Since Health In Harmony supported Dr. Kinari Webb in opening a small clinic on the edge of the Indonesian rainforest in 2007, Kinari's vision has provided affordable healthcare to more than 7500 of the world's poorest individuals, and has inspired local communities to protect their forests. In 2009, Kinari and the staff of Clinic ASRI have exciting plans to increase the impact of their work. Please join Kinari and the board and staff of Health In Harmony to learn more about future clinic expansion, the kick-off of reforestation efforts, and plans to create economic alternatives to illegal logging for local people.

Appetizers, drinks, and stories from the field - see you there!
